ABOUT ME

I am Talal Zacharias Koch born 11th July 1992.

I've been programming for over 10 years. As a trained IT specialist in application development, I worked in the finance sector for 6 years. My strong passion for game development has led me to change my career and studied Games Programming at the SAE Institute in Frankfurt. And teach students game development as freelancer. I've been constantly working in parallel on Project: Pioneer. A large scale, personal passion project.
